Scope & Content Note

The images do not provide comprehensive coverage of the college. The scope of coverage is limited for both subjects and dates.

The subject matter of most images is related to the creation of the consolidated campus at Willowbrook. Specifically, there are images from the Willowbrook State School Closing Ceremony, architects' presentations and the groundbreaking, demolition, construction and dedication of the new campus. There are also three general folders of images of events, students and college staff, mostly from the 1980's. Almost all of the photographs in the collection cover the period of 1984-1994.

The majority of the printed mages in the collection are 8x10" prints. The construction photographs include both black-and-white and color photographs; otherwise, most images are black-and-white. There collection also includes color slides, mainly of campus construction, but most are poorly labeled. The collection also includes contact sheets and negatives.

Series Descriptions & Container Listing

[The following box/folder inventory is in the form of a table. If you are visually impaired and using a pdf reader you may need assistance and should contact the Archives at 718-982-4128.]

Series 1: Campus, 1981-1999. Approximately 4 Linear Feet.

Photographs of the campus include images of campus grounds, buildings and other features. Prints of architectural plans and models on photographic paper are included in this series.

Series 1 - Subseries A:: Prints, 1985-1999. Approximately 4 Linear Feet.

The bulk of the photographs are related to the construction of the new campus at Willowbrook. The photographs include:

Pre-demolition photographs taken in November 1988 for the New York State Dormitory Authority in order to document buildings on the former site of the Willowbrook State School as part of DASNY Project No. 65102301. There were originally 62 photographs in the set of large prints and 61 photographs in the set of small prints, which has one less image of Building 2. There is a full set of 3x5" prints, but about ¼ of the large prints are missing. A list of the prints and a map of the project site are available for both the large and small prints.

Images of demolition at the Willowbrook Campus from February 1990.

Construction photographs from 1990-1994. The 8x10" prints include dates and labels. With the exception of one folder containing photographs of the grounds around South Quad, the prints are arranged by the CSI building number, and then chronologically and by print number. A few general folders containing 3x5 and 4x6" prints follow these folders.

There are a few campus photographs from the late 1990's; these follow the construction photographs.

Series 2: Events, 1985-2001. Folders.

This series contains images from various events including architects' presentations, commencement, and the Willowbrook State School Closing Ceremony. While the event is known, the individual photographs from the event are usually unlabeled. The majority

of the photographs are 8x10" black & white prints. The folders are arranged chronologically.

A general folder of photographs donated by an alumnus that includes some event photographs is in the **Staff & Student Life** series.
